License Number F1239

## PROCLAMATION Town of Bassano CLEAN-up DAY

The Council has set Wednesday 2nd May 1945 as (Clean-up Day) and all citizens are required to remove all ash piles and other refuse and to co-operate by cleaning up their premises before the above mentioned date.

By Order of the Health Committee  
Jas. R. Donaldson  
Secretary - Treasurer.

## TENDERS WANTED

Sealed Tenders will be received by the undersigned up to noon on Saturday, 5th May 1945, for the property known as the Haskayne Butcher Shop situated on E. 24th St. of Lot 3, Block 3, plan 207711. Bassano subject to the consent of the Minister of Municipal Affairs and subject to the existing lease.

All tenders should be addressed to the undersigned in sealed envelope and marked Tender for Butcher Shop, and must be accompanied by a certified cheque for ten per cent of the amount of offer.

The highest or any tender not necessarily accepted.

Jas. R. Donaldson  
Secretary - Treasurer.

## EXTRACTS FROM THE COUNCIL MEETING

The Regular Meeting of the Council was held in the Town Hall on Monday 2nd April 1945. All Members were present.

The Minutes of the last Meeting were confirmed.

Secretary Jas. R. Donaldson was appointed a Director to represent the Council on the Alberta Housing Association Limited.

The Secretary was instructed to place in advertisement in the local Newspaper calling for Tenders for the purchase of the property known as the Haskayne Butcher Shop.

The Reports of the Treasurer, Engineer and Utility Man for the Month of March were read and accepted.

The Property Committee reported that they had sold the Currie and Milroy property to M. R. Miller, and also recommended that repairs be made on several properties owned by the Town. The Report was accepted and the sale of property confirmed.

The date of the Court of Revision on the 1945 Assessment Roll was set for June 2nd, 1945.

The Council appointed Wednesday, 2nd May 1945 to be Clean-up Day and ordered a Notice of such to be placed in the local Newspaper.

er asking for co-operation of Citizens.

The Estimates of Expenditures of the Various Committees of the Council for 1945 were approved as follows:-

Finance and Gen. Exp.	2750.00

lumber company last winter.

Mr and Mrs Pete Loewen and family spent the Easter holidays with his folks here.

Mr and Mrs Henry Unger, and Mrs J. Williams had the joy of having C. Plett and family from Calgary over for the holidays.

The Neumann families are spending their holidays in the city of Calgary, with their sister Mrs M. Loewen.

Eddy Jensen Counties is spending his holiday with G. Friesen. Eddie Friesen who is teaching at Antelope Creek is also home for the holidays.

Gem farmers start to farm as soon as possible if it is as early as March. Several outfits are plowing and many have harvested their plowed land. If weather permits it will be one of the earliest seasons.

## Born at the Hospital

Mr. and Mrs. Willard J. Treacy, Husar a daughter on March 4th, 1945.

Mr. and Mrs. Harold Blackmore, Rosemary a daughter on March 12th, 1945.

Mr. and Mrs. Wm. H. Moore, Gleichen a son on March 15th, 1945.

Mr. and Mrs. David Gowitz, Bassano a son on March 18th, 1945.

Mr. and Mrs. Walter Pollock, Gem a daughter on March 18th.

Mr. and Mrs. Albert H. Strong, Majorville a daughter on March 25.

Mr. and Mrs. Harvey Hodgson, Eyremore a daughter on March 24.

Mr. and Mrs. William Kelly, Crowfoot a son on March 25th.

## GEM NEWS

Many of the Gem people spent a very happy Easter this season, because most of their relatives were home.

Pete Thiesen and John Loewen arrived last week from the north where they were employed by a

Haywire comes in mighty handy for many an emergency repair around the farm. But it won't do when farm machinery and other expensive equipment breaks down. It's then that repairs and replacements can run into real money.

**LOANS TO FARMERS**  
at reasonable rates are constantly made by The Royal Bank  
...to buy livestock  
...to buy fertilizer  
...to repair or replace machinery  
...to buy seed  
...to buy feeder cattle  
...to meet seasonal wage bills  
...for any other reasonable purposes.

Loans to take care of essential repairs or replacements are always available at any branch of The Royal Bank of Canada. Money spent for such purposes is money well invested, because a breakdown on the farm often leads to serious and costly trouble. When you need cash to repair or replace machinery, or for any productive purpose, call on the manager of our nearest branch.

## THE ROYAL BANK OF CANADA

BASSANO, ALBERTA, BRANCH - H. W. HARPER, MANAGER

## THIS IS AN OFFICIAL STATEMENT BY YOUR GOVERNMENT ABOUT

# COAL

This year the mines must be kept working during the Spring and Summer. Unless they get a steady flow of orders, they will lose their mines to other employment. It is absolutely imperative that the miners keep at work in the mines.

The transportation situation also is likely to become serious. The railways are now in a position to haul coal from the mines to the dealers' yards, but later will be busy hauling grain.

The coal dealers have had difficulties this past winter with delivery labour, and if they are to deliver all the coal required by their customers, it will be necessary to keep their employees busy every working day in the year.

So that your dealer may do his part in keeping the mines busy during this war emergency, get him to fill your bin as soon as possible.

## PASSING

And The  
PERMANENTThe Greatest  
Power Known

Dr. Walter A. Maier of The Lutheran Hour states that a natural substance has been discovered recently that has amazingly great power. One pound of this U-235, as it is known at present, will yield as much energy as five million pounds of coal three million gallons of gasoline. Fifty pounds will propel an ocean liner or submarine for an indefinite period. This sensational new substance certainly will put more natural power within the reach of man, but the greatest power in the universe is already within man's reach. It is the gospel of Christ, which is "the power of God unto salvation to every one that believeth." Rom. 1:16

Russians And  
RELIGION

A report from Geneva says that a thousand Russian prisoners in one European camp have erected, of their own accord, a church building in which orthodox services can be held. There is still a deep religious hunger in the hearts of the Russians, despite the anti-God campaign.

## POISON-PEDDLERS

It is reported in Evangelical Christian that there are about 6000 organizations in the United States actively engaged in anti-Jewish propaganda. They are poison-peddlers of the worst sort, spreading the deadly virus of Jew-hate, the virus of the Serpent himself, who has ever fought against Israel.

A Synthetic  
RELIGION

According to a recent *Dominion* report, the Japanese Government has abolished all religious bodies, Christian and non-Christian alike, in order to create a government-controlled, government-financed war-time patriotic religious society designed to increase the fighting strength of the people through religious fervor. This must be the closest approach yet to the church of the Antichrist!

INDIAN WORK  
ENCOURAGED

The House of Representatives, through its Committee to Investigate Indian Affairs and Conditions, reproaches the nation for its long neglect of our Indians and invites the churches to intensify their work among them. The Committee frankly acknowledges that moral conditions are not likely to improve except through a strong program of religious work.

Preying - Not  
PRAYING

A Chicago woman, according to the *Daily News*, explained that when officers arrested her she was only "praying." "That's right," said a detective, "you were only preying—preying on un-

Mid-Week Thought  
For The Busy People

## JUST OUTSIDE THE DOOR

Pete Johnston, his son Ivor and two other hunters were hunting moose behind their cabin in the hills of the North. They had hunted miles from their cabin during the course of the day and as evening approached they decided to take a shortcut across a ridge of forested hills and valleys. By so doing they intended to strike the main trail that led to their cabin and shelter for the night. On and on they journeyed; darkness fell and the day became colder with the coming of night. Ridge after ridge they crossed, valley after valley they plodded through until, tired and hungry, they gave up all hope of finding their cabin that night. They were lost in the forest. So they decided to camp out in the bitter cold. There was no other alternative.

They lit a fire, laboured all night to keep it burning and took turns to do so. While the others tried to sleep one would keep the fire burning, gathering firewood and putting it on the fire. In this manner they passed the night, yet hungry and cold as sub-zero weather had set in and descended upon them. And timber wolves were howling in the distance, causing long, radio-like waves to play up and down their spines. For although the outdoorsmen of the North are not afraid of wolves, they do cause even the most seasoned outdoorsman to have, at least, a prickly sensation run up and down the spine.

Finally, after a night of discomfort and hard toil to keep the fire burning brightly, Pete Johnston and his companions watched the grey of early morning descend upon the forest. Imagine their surprise! They stood amazed! What do you think had taken place during the night? They had camped one hundred yards from the main trail and only five minutes' walk down the trail to their cabin and they did not know it. They had camped JUST OUTSIDE THEIR CABIN DOOR!

There are hundreds and thousands of people who are camping just outside the door. They are camping in a night of sin and darkness. All around them darkness has settled down; the wolves of Satan are howling on every side, and the cold atmosphere of the world is chilling them to the bone. And to add to their misery, many do not realize that they are just outside the door. Nevertheless, they are lost, for to be just outside the door is as bad as being one hundred miles away, if they do not enter.

In John 10: 9 Jesus states: "I am the door." But many do not realize this truth, or if they do, they will not accept Him, and others simply put off the day of salvation, while some consider themselves good enough without Christ. Then there are some who are training in good works alone. All these classes of people are outside the door, and many are JUST outside the door. Therefore, Christian youth of Canada, our duty is to point men and women The Door. In the armed forces, lying upon beds of sickness, isolated in lumber and mining camps, on the farms and in the cities are hundreds of souls without Christ. Your duty and mine is to win them to the savior.

Yet, before we receive the vision of lost souls, before we are under the burden, we must enter another door. We must pass through the portals of the door of consecration. On the shoulders of Canada, you who have accepted Christ as Saviour, you who have entered the Door of Life, finding in Him salvation full and free, may steadfastly never be told of us that we are camping JUST OUTSIDE THE DOOR OF CONSECRATION! For to be just outside the door is to have no LOVE on behalf of souls. Enter, Christian people, the door of consecration. Say with the prophet of old: "Here am I, send me." Hundreds, yes, thousands, yes, millions are dying, not knowing that Christ died for them. Let us be up and doing and labour while it is possible.

Isn't it strange that princes and kings,  
And clowns who caper in swaddling rings,  
And common folk like you and me,  
Are building for eternities?  
To each is given a bag of tools,  
A shapeliness mass and a book of rules,  
And each must make, ere life be flown,  
A stumbling block or a stepping stone.

suspecting women." Three women identified her as the person who had collected a total of \$1,072 from them by "praying for their illnesses" if they would put their money in a handkerchief and let her "bless" it!

It is too bad that such people have to use religion as the cloak for their covetousness. It casts a reflection upon those who sincerely and unselfishly do good for the sick and use "bless handkerchiefs" with the manifest approval of the Lord.

The "Moving  
Away"

Says Cyrus W. Eaton in *Magazine* of religion: "I expect the next size Dignit: 'I look for vast chan-

ges years will see a moving away from many of the creeds, doctrines and the rituals that have come to seem such an essential part of religion, and a moving toward a greater emphasis on man's bond with his fellows and on the good life here on earth. The best faith and the best practice are found in the sympathy of man for man. It is the one trait common to all religions, and the noblest trait of all religions."

Comments Prophecy Monthly: "This is the humanitarian creed of Modernism and many of the cults. It is striking that the Greek word used in 2 Thess. 2:13 'calling away' means a 'moving away' hence, an original position—away from, a transferring of the edifice of faith to foundations laid by man."

The EBREW  
PASSOVER

Under special permission, reprinted from a book distributed by The Redeemed Hebrew, Box 661, Birmingham, New York. Price 50c. Related by Abraham Silver stein.

And now concerning the number seven, which this candlestick symbolizes. The seventh candlestick represents Christ. On the seventh day God rested, having created the world and all that therein is; the seventh month Noah's ark landed safely; the dove was sent out on the seventh day, Abraham prayed seven times for Sodom and Gomorrah; Jacob worked seven years for his wife Rachel and having failed to get Rachel by the substitution of Leah, he worked another seven years to get Rachel. He mourned seven days for Joseph and Laban pursued him seven days. A plenty of seven years of famine was foretold and came to pass, the dream showing seven fat and seven lean cows; seven ears full and seven ears of blasted corn. On the seventh day of the seventh month the Jews began a feast of seven days and remitted seven days in tents. Every seven years the bondsmen were free. In the destruction of Jericho, seven priests bore seven trumpets for seven days. On the seventh day they surrounded the wall seven times, and at the end of the seventh round the walls fell. Solomon was seven years building the Temple and feasted seven days at its dedication. In the tabernacle were seven lamps, the golden candlesticks had seven branches. Naaman washed seven times in Jordan. Job's friends sat with him seven days and seven nights, and offered seven bullocks and seven rams as an atonement.

It is customary that during the Passover supper the Master of the house dip a sop or enough for a mouthful into the dish containing the herbs and sauce and pass it on to someone around the table. The New Testament gives ample evidence of the fact that Jesus Christ observed this bit of tradition. We read for instance in John 13:26 "Jesus answered He it is to whom I shall give a sop, when I have dipped it. And when He had dipped the sop, he gave it to Judas Iscariot, the son of Simon." At times, and this too is customary, each one in the family dips the sop into the dish. As it is also recorded in Matthew 26:23: "And He answered and said, He that dips his hand with me in the dish, the same shall betray Me."

In the New Testament, we find the number seven mentioned again and again. Especially the book of Revelations is teeming with that number. There we read of the seven angels, the seven churches, the seven seals, the seven spirits; personages, dooms, wreaths.

Continued in the next issue.

RENEWAL OF  
UNEMPLOYMENT  
INSURANCE BOOKS

## To All Employers:

All Unemployment Insurance Books for the year ending March 31st, 1945, must be exchanged for new books.

Kindly communicate immediately with the nearest Employment and Selective Service Office if you have not already exchanged your employees' books.

There are severe penalties for failing to make Unemployment Insurance Contributions for your insured employees and for failure to renew the Insurance Books as required.

## To All Employees:

If you are an insured person protect your benefit rights by seeing that your Insurance Book has been exchanged.

BIBLE QUESTIONS  
ANSWERED BY THE  
VOICE OF PROPHECY  
INTERNATIONAL BIBLE EDUCATORS

Q.—"In what year was Christ born?"  
A.—1915-23 we are told that Jesus was baptised when he was about thirty years old. According to this in the margin of my Bible, it was A. D. 27. That would bring his birth about 4 B. C. How about it?

A.—The reason for this is that the dating of events from Christ's birth began centuries later, and Erasmus, who first published calculations in A. D. 1526, made a mistake of about four years, which has since been corrected.

Q.—What does the word "Abba" mean in Romans 8:15?

A.—It means "father" or "my father."

Q.—What is the difference between the Holy Ghost and the Holy Spirit?

A.—The word "ghost" is an old English word meaning "spirit." The Holy Ghost and the Holy Spirit are the same.

Q.—I was told that some of the books of the Bible are sealed. Can you tell me which ones?

A.—Only one book of the Bible was sealed—the book of Daniel's prophecy. It was sealed until a definite time, but it is now unsealed. But then, O Daniel, seal up the words, and seal the book, even to the time of the end; many shall run to and fro, and knowledge shall be increased. Daniel 12:4.

Q.—Can you tell me what the ten horns on the beast in Daniel's prophecy mean?

A.—In Daniel 7:17 we read that "ten horns out of this kingdom are ten kings that shall arise." The Roman Empire was divided into ten parts, and most of these fragments are recognizable in the nations of Europe today.

Q.—Why would I pay taxes if I am a child of God and belong to His heavenly country?

A.—If you are a child of God, you should obey the Word of God and pay your taxes, for Romans 13:1-2 says: "Let every soul be subject unto the higher powers. For there is no power but of God: the powers that be are ordained of God. . . . Render therefore to all their dues: tribute to whom tribute is due; custom to whom custom; fear to whom fear; honour to whom honour."

EL NORTON Address your questions to the BIBLE QUESTION COLUMN, The Voice of Prophecy, Box 55, Los Angeles 33, Calif. Bible questions of general interest will be answered in this column as space permits.

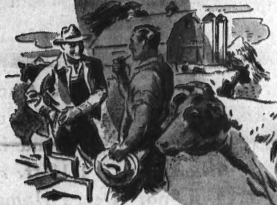

# IN MANY WAYS BETTER THAN

# Cash

You will want cash if you plan to improve your home when the war ends...

You will want cash if you plan to improve your live stock...

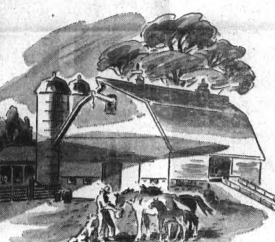

Managing a farm is in many ways similar to managing any other business. That is why reserve savings in liquid form are so helpful to a farmer.

Victory Bonds provide the handiest form in which savings can be kept with safety. Their security is without question. They represent money owing to you by the Dominion of Canada, just as dollar bills do. And... better than dollar bills... they earn interest for you every day you hold them; even when put away for safe keeping in a bank vault or in a safe. They pay double bank interest.

You can get cash for Victory Bonds if you need cash in an emergency. Any bank will buy them from you. You can borrow on them, without any formality. Simply take them to any bank and get the loan you need. The interest the bonds earn pays a large part of the bank interest on the loan.

So, realize this fact, Victory Bonds are better than cash because they earn interest.

Buy Victory Bonds to have cash where you need it, when you may need it. Buy Victory Bonds to help maintain your country's war effort.

You will want cash if you plan to build new barns or install new barn equipment...

accident, even if it did reflect on a man whose life had been lost, for the unpleasant truth is that most private flying accidents are caused by almost criminal foolishness. Motorist failure, for instance, is one of the rarest causes of private flying accidents.

Low level flying probably causes more private plane crashes than anything else. Motorists often lose their lives by drunken driving. Drunken flying has not been unknown either, but aviation has taken it on the chin for the mystery which has surrounded crashes caused by such flying.

But need private flying crashes continue? Yes, in some measure, as automobile crashes will also continue. But as a more stable type of individual begins to fly the number of crashes, already rare, will become even rarer.

Before the war, by the lack of averages, with few landing facilities available, with most private flying confined to circling an airport, the type of individual attracted to flying was the type who was looking for thrills—the kind of lad who enjoys 80 miles an hour on a motorcycle.

Well this young chap got up in a plane and found it wasn't a bit exciting. At even 200 miles an hour the ground moves by very, very slowly when you're at a reasonable distance up. So in order to get the thrill which does not exist in normal, safe, utility flying, this type of person had to try skimming the roof tops, circling the church steeple or the girl friend's house.

Then there was always the chap who had to do a loop at 700 or 800 feet and if he woke up at all, found himself in a tree.

When a sane ordinary everyday man or woman find that there are enough landing facilities to make flying a utility proposition, you'll see the private flying accident rate take a sharp drop. If a man is content to stick to reasonably good weather and fly at a reasonable altitude he'll find it as safe as walking.

If plain ornery foolishness could be eliminated from flying, foolishness that no man would attempt with an automobile, even private flying would be safer than motorcaring.

## DRUGS and STATIONARY

**STILES THE DRUGGIST**

"THE NIXALSTORE"

So flying is a dangerous business and you'd just as soon keep one foot on the ground? Well, motoring is an even more dangerous business if you are ready to accept the best available figures on the subject. In 1941 before gasoline rationing, somebody was killed in a private automobile every 36 million passenger miles. In scheduled airline operation on the other hand, there was only one death for every 45 passenger miles.

re dangerous than scheduled flying. The causes are not as mysterious as one might suppose. In fact few plane accidents are mysterious. Government investigators usually get to the bottom of them. Your newspaper story of the crash may give no reason, and often the reason never does see print. Often when investigators may be morally certain of the cause, the proof is not sufficient to warrant release of their suspicions.

Figures on passenger miles per fatality in private flying are not available, but admittedly it is more dangerous than scheduled flying. The causes are not as mysterious as one might suppose. In fact few plane accidents are mysterious. Government investigators usually get to the bottom of them. Your newspaper story of the crash may give no reason, and often the reason never does see print. Often when investigators may be morally certain of the cause, the proof is not sufficient to warrant release of their suspicions.

Actually it might be a good thing for flying if the public was told promptly exactly what was believed to be the cause of each
